

DANIEL GOLDSTEIN

**Occupation:** Appointed Council Member / Cybersecurity Engineer

As a proud dad of two great college kids and 20-year Hayward homeowner, I want a safe and affordable Hayward for all, including my kids and yours. Volunteering for the City of Hayward, I've advocated for effective, community-responsive policing and public safety. In 7 years on the Hayward Planning Commission, I fought for quality development creating more housing, jobs, city revenue, entertainment, and parks like Mia's Dream Playground and La Vista Park. I've pushed for all new developments to include affordable units, because everyone deserves safe homes, good schools, nearby grocery stores, transportation, and parks regardless of income. As Hayward Education Foundation Treasurer, I've helped approve \$150,000+ in classroom grants over the past 2 years. I'll continue to push for economic growth, new businesses, and safe, efficient travel to and from Hayward. And I'll provide leadership for a greener future, with continued City of Hayward-led environmental and climate change initiatives. Please join labor unions, Hayward businesses, current and former federal, state, and local electeds, and many others endorsing me. Working together, we make great things happen in Hayward! Contact me with your ideas ([dan@danforhayward.com](mailto:dan@danforhayward.com)). I will respond! I would appreciate your vote. Thank you! [www.danforhayward.com](http://www.danforhayward.com)
