Subject: City of Hayward Commercial Cannabis – CCP Additional Information on Community Benefits

Dear Potential Applicant:

The City has received several inquiries about possible Community Benefits as outlined in the Commercial Cannabis RFP. To provide additional guidance, we have included a link within the RFP and on the City's Commercial Cannabis webpage to the Community Services Commission webpage, which includes links to the FY 2018 funding recommendations by the CSC. Additionally, we are attaching the list of agencies that were awarded FY 2018 Community Agency Funding. While these aren't the only programs in the City that provide beneficial program services to our residents, the list is an example of where the City has identified and dedicated resources to serve the community.

Additionally, all applicants are encouraged to watch or listen to the City Council meeting discussion on Community Benefits that were part of the RFP selection criteria. Please note, the City of Hayward City Hall will be closed starting Friday, December 22 thru Monday, January 1, 2018. No emails or phone calls related to cannabis will be answered or responded to until we return on Tuesday, January 2, 2018.

For more information, please refer to the City's webpage, which includes all the documents related to cannabis: <https://www.hayward-ca.gov/your-government/programs/medical-and-adult-use-cannabis> or you can watch or listen to the City Council meeting video streams (<https://www.hayward-ca.gov/content/council-documents-medical-and-adult-use-cannabis>).

Thanks again for your interest in Hayward.
