<i>Description: I recently purchased this home in June 2022. The previous owners enclosed a patio off the side of the house and I am currently being cited for it (case number 22-1920). It is my responsibility to open up the enclosed patio and in doing so my contractor must demo 10 feet of the siding of the house and the roof enclosure. No structural work was changed on the home. The side walls are still exterior stucco so this will not take too much work. All of the houses on this street have the same plan so the house will go back to having a side patio with a fence (also a gate for fire escape). This will not alter the structure of the home, just removing added unpermitted work.</i>
